

8 May 1984

MEMORANDUM FOR: Deputy Director, Intelligence Community Staff

FROM: Vice Chairman, Critical Intelligence Problems Committee

SUBJECT: Terrorism Working Group Report

1. This afternoon [] phoned DO's coordination to the subject report. After some soul searching, [] has agreed to buy the report without change. His compunctions had centered on the report's call for vigorous Community leadership by the NIO/CT -- a role which [] had seen as possibly intruding on DO's turf. He anticipates, however, that Dave Whipple will handle his duties "responsibly." He also notes, (1) the report offers a set of solid, practical recommendations, (2) it should serve to demonstrate to Congress we are working to improve, and (3) it should prove helpful in bringing more resources to bear on the terrorism problem.

2. The report is now fully coordinated. A draft incorporating the final changes is attached for your review. With your permission, we will send it to the CIPC members immediately. Less than two weeks remain before our scheduled 21 May meeting.
